

## Kenworth Celebrates Historic 250,000<sup>th</sup> Kenworth T800, Trican Receives Landmark Truck in Special Ceremony

### Event Hosted by Kenworth Assembly Plant in Renton, Washington

KIRKLAND, Wash. – Kenworth Truck Company celebrated the production and delivery of its historic 250,000<sup>th</sup> Kenworth T800 truck during a special ceremony at the Kenworth assembly plant in Renton, Wash.

The landmark Kenworth T800 was received by Trican Well Service Ltd., which is one of North America's largest providers of oil and gas pumping services and whose headquarters is located in Calgary, Alb. Trican has operations in Canada, the United States, Russia, Kazakhstan, Australia and North Africa.

Trican's Don Luft, president and chief operating officer; and Ben Mikulski, corporate manager of equipment standards and R&M services, were presented with the keys to the new Kenworth T800 by Gary Moore. Trican purchased the new T800 from GreatWest Kenworth in Calgary and expects to use the vehicle to transport a massive coil unit in excess of 200,000 lbs. in the oilfields of North America. The Kenworth T800 has become Trican's truck of choice for its versatility, reliability and high maneuverability.

"The Kenworth T800 has been a very high-performing, productive truck for Trican since we began purchasing T800s about 15 years ago," Luft said. "It's a special moment to receive the 250,000<sup>th</sup> T800. We certainly appreciate the efforts of Kenworth and its employees to provide us with excellent trucks that get the job done in our tough, demanding applications in the oilfields."
