Certified Pre-Owned

## A KENWORTH FOR ANY JOB

Kenworth has a diverse model lineup to suit all of your Class 8 truck needs. Head to [www.KenworthCertified.com](http://www.KenworthCertified.com) to find out more about Kenworth Certified Pre-Owned and see our currently featured certified trucks and find the right truck for you. Check back often as Kenworth Certified Pre-Owned inventory continues to grow with The World's Best Trucks.

**T680**

*Kenworth's most aerodynamic truck ever. The Kenworth T680 takes performance and driver comfort to a whole new level, while being packed with new technology to provide you with the lowest possible operating cost. Whether it's a day cab or sleeper of any offered height and length, the Kenworth T680 has become known as The Driver's Truck™.*

**T880**

*Ask anything of the T880. And it will deliver. Day in and day out, the T880 is a dependable, versatile vocational vehicle capable of performing your toughest jobs productively and efficiently. With the strength, stamina, and operating economy you need to move your business ahead.*

**T700**

*The T700 offers Kenworth's widest cab giving you the maximum possible interior space with its high roof integrated sleeper. The fuel-efficient design will help cut your operating costs for all your over the road needs*

**T660**

*While new production of the T660 has ended, this classic, fuel-efficient, dependable truck will continue to keep your business moving as a second owner. With day cabs as well as full and mid height sleepers at various lengths available, you're sure to find a spec that meets your needs.*

**T800**

*The Traditional Workhorse. The T800 possesses the strength and versatility to tackle whatever task your business can throw at it.*

**W900**

*Since the day it was introduced, the W900 has set the standard for long-haul power, performance, and reliability. While also having a signature look that always turns heads. The W900 is a classic truck that continues to be a driver favorite.*

**KENWORTH**  
**THE WORLD'S BEST.**

## THE KENWORTH LEGEND

In 1923 H.W. Kent and E.K. Worthington rolled their first production Kenworth out the door. As if to shape the future of the company, that original Kenworth proved amazingly durable. The philosophy that emerged from that factory along with the first Kenworth is one of permanence. Of innovation. Of superior craftsmanship. Today, over nine decades of proven operating results stand as irrefutable evidence of the quality, commitment, engineering, and performance that have gone into creating this remarkable legend known as Kenworth. Proof too, of the value inherent in its unmistakable insignia – an enduring symbol of excellence that distinguishes and unifies a diverse range of trucks known simply as The World's Best. From the first owner to the last.

The Kenworth Certified Pre-Owned program is built from this tradition of excellence and provides you with the highest quality, longest lasting trucks on the road. Now, with a Kenworth Certified Pre-Owned truck you know you are getting the best of the best, giving you the peace of mind that you will maintain maximum uptime that the Kenworth brand is known for.

All Kenworth Certified Pre-Owned trucks are late model year, low mileage trucks in top condition which are put through a rigorous inspection by highly trained technicians. As a part of the inspection process, each and every truck receives an Oil and Filter change and a full DPF cleaning, ensuring a road ready truck to help you get the job done.

**PACCAR** MX-11  
***Powered By Quality***

PACCAR's 50 years of diesel engine development and manufacturing expertise has established the company as one of the leading diesel engine manufacturers in the world. PACCAR engines have accumulated over 50 million miles of field testing — in the most severe of conditions in North America — resulting in an engine durability B10 design life of 1,000,000 miles. This level of quality and durability increases the time before a major overhaul is needed — resulting in exceptionally low life cycle costs. PACCAR Engines are built in Columbus, Mississippi at a state-of-the-art engine manufacturing, machining, and assembly facility.

In the 6 years since the PACCAR MX Engine was introduced it has grown in popularity and customer acceptance resulting in over 100,000 engines built and delivered throughout North America. In 2016, the PACCAR MX Engines accounted for over 45% of class 8 Kenworth truck orders.

The 12.9-liter PACCAR MX-13 engine is designed to meet the demands of linehaul heavy-duty truck applications – delivering the increased horsepower and torque needed to move large payloads with ease, even on steep grades. The 10.8-liter, in-line six-cylinder PACCAR MX-11 engine is perfect for weight sensitive pickup and delivery, less-than truckload, and regional applications.
